Orders from unknown Correspondents must invariably be accompanied by remittence.
Prices are quoted in Franc abont 9 1|2 d. — or 5 Fre—4 Shilting.— or 25 Francs—1 L. Sterling.
Net cash within 60 days from dato of invoice.
Commissions promptly despatched'
I send out all plants at the risk of the purchaser
My horticultural nomenclature and of the names of forms originating in my garden. I can guarantee the genuineness
I decline responsabilty for the unconditional correcteness of the botanical names of new or rare species. In doubtful questions the first botanical authorities must decide.
Visitors of Naples are invited to visit my Nursery.
Nocera Inferiore lies on the Paestum Route, between Pompeji and Cava dei Terreni;

Vert fine new and rare plants	QUANTITY	FRANCS
Asparagus Sprengerii fol. var.		
Have now a fine stock of young healthy plants with fine white variegated leaves. strong plants	each	5
smaller	»	2
for large quantities, price on applicatiun.		
Babiana Bainesii *Bak.*		
A very fine summerflowering plant from South Africa. Leaves are long plicate and the flowers are shyblue with a large white blotch. Quite different of all the old Babianas known before, fine for pot culture.		
Are ready for sending aut in the autumn.		
large bulbs.	10	5
Calanthe tricarinata		
Another fine Calanthe from Iapan with rose petals and brown labellum, very easy and rich flowering species.		
Here they are quite ru-tic.		
Strong plants	each	10
Crinum × Balfourianum *hort Mull.*		
(yemense rubricaule × Moorei album)		
Tall growing hybrid with long broad dark green leaves, with large pure white, tubular, swectscented flowers. Is a luxuriant plant aud fine for subtropical groups. Will be hardy in the most parts.		
Large flowering bulbs.	each	5

	QUANTITY	FRANCS
Crinum × Prainianum *hort Mull.*		
(yemense × Moorei)		
One of the richest flowering of all Crinums. Broad fresh green leaves flower stalk tall, with very large fragrant finest rose coloured flowers. Very quick grower and forms in a shot time a large tuff. Is one of the best for grouping in the lawn Hardy.		
Large flowering bulbs	each	5
Crinum × Tremaynianum *hort Mull.*		
(yemense var × Moorei)		
Tall growing plant with enormous pure white flowers, which resem bling giant Lilium longiflorum.		
The bulb is enormous, but the multiplication is very slow.		
Large flowering bulbs.	each	15
Cypripedium insigne fol. arg. var.		
This wonderfull plant is a sport of the very hardy Naples variety. Also this variegated plant is growing during the winter only in a cold frame, from March till end of Novembr in the open. leaves of my plants are broadly striped with pure white an dit is a quick grower. Will be a favorit in every Orchid collection. Every visitor of my garden was astonisted seeing this very lovely variegated plant.		
My stocke is limited.		
Prices on application.		
Freesia hybrida italica.		
This race was raised by Prof. Ragionieri. They are hybrids beetween Armstrongii, Chapmanni & the best varieties of re-		

R. Orto Bot. Giardino
1911

	QUANTITY	FRANCS
fracta. The col ur is varising from pink too carmin and lillac too deep purple. The flowers are smaller but richer flowering than those of the old Freesia. They have received many gold medals at the expositions in the last years.		
Strong bulbs	10	10
Hemerocallis × strassburgensis.		
These 6 following hybrids are the best of the whole series, raised by Mr. Müller, of the Bot. Garden Strassburg by crossing the true Hemerocallis fulva wih other species.		
In flower they are nearly as my H. fulcitrina hybrids but they are earlier flowering.		
Prof. Kirschleger.		
Prof. Krause.		
Goldball.		
Orange.		
Prof. Jost.		
Prof. Stahl.		
The whole sortim nt	each 6	2 10
Hemerocallis × nucerensis *hort Mull.*		
Hybrid betwen H. Sir Michael Foster (aurantiaca major × citrina) × citrina Evergreen, long fresh green leaves, flower stack tall, 15-20 fiowers, Ve y large clear yellow flowers. This and H. S. M. Foster are the best of all my hyb ids.	each	3
Gladiolus Ecklonii Bak.		
Very fine and interresting Gladiolus, which have received from Basutoland. The leaves are broad with a white hard margin, the flowers stem is dwarf, flowers medium size, ashgrey densely blak spotted.		
Quite different of all species known before.		
Certainely it will be a usefull plant by any hybridiser, aud the time is near that we have a class of black spotted Gladiolus in our gardens.		
Large Bulbs, ready in the autumn.	each	7
Iris × ibpal (iberica × pallida)		
This fine hybrid raised by the Prof. M. Foster, is one of the finest Iris. Flowers are very large. Standards pal blu, Falls ashygrey witt black spot.		
This hybrid is very rustic aud grows in every soil, also where Oncocyclus are not doing well.	each	5
Kniphofia hybrida praecox. *hort Mull.*		
A fine lot of Mayflowering Knipfofias. Are Hybrids beetwen vomerensis (pauciflora × rufa) × Nelsoni, Tuckii, Uvaria, The flowerspike is of medium size, mostly yellow, but also several have red bottons. They are fine for the garden but also as pot plants.	each	2
Mixed colours.	10	17
Lycoris radiata pumila.		
A dwarf variety from Shen-shi. It is earlier in flower than the japan Lycoris radiata. Flowers stalk dwarf, purple and the flowers darker than the typical species.	each 10	2 18

	QUANTITY	FRANCS
Iris reticulata Melusine.		
A very fine variety with large light porcellan blue flowers.		
Strong bulbs.	each	3
Tillandsia dianthoidea *Rossi*		
This interresting Bromeliaceae is seldom cultivated and therefore it is one of the easiest plants. It grows here without any soil or spagnum, only in the air. Every year during May & Iune they are flowering with verry pretty blue flowers. It is a plant for any garden, grows luxuriantly in the rooms.		
I offer strong flowering plants one head	each	3
large clumps with 3 heads		8
Tillandsia procera *Mart* (gracilis)		
Another air Bromeliaceae, very rare, has not yet flowered with me, same culture as dianthoidea.		
strong plants	each	10
Tillandsia xiphioides *Ker.*		
This is the finest. Leaves are more longer aud when cultivated in the sun, silvery white.		
The flower spike, is about 50 cm. long aud every day during month are open the beantiful pure white large flowers. I have only a few plants in cultivation and it is a very rare plant.		
strong, flowering plants.	each	20
Viola splendida *Becker.*		
Another very pretty rockery plant from the Mountains of Sonth Italy, the flowers are large pale purple aud during very long time. It is near the Viola gracilis and pseudogracilis offered last year.		
Fine pretty plants in pots are sending out in September.	each	5
Viola splendida eburnea.		
A pure white variety of the type.		
Fine pretty plants iu pots are sending out in September.	each	5
